

Ron E. Williams
City Manager

"The Caring Community"
"Part of the Original Florida"

Dear Citizens,

The City of Live Oak Public Works Department is striving to improve the operation of the Sanitation Department. We would like to remind you that in order to serve you better, you must separate your trash and observe the following rules. Please understand that these rules are for the safety of our workers and an effort to ensure that you, the citizens, do not pay higher tipping fees on refuse disposal.

- 1.) Citizens are required to sort and place the following materials in separate containers which cannot weigh more than 40 pounds each. There should be no more than four (4) cans, and they must have closing lids to protect said materials from rain water and to prevent animals from getting in. Cleaning up your windblown and loose trash is your responsibility if you fail to secure your containers.

The following materials must not be mixed:

- Metal (for example: do not mix metal with leaves)
- Plastic, glass, paper, household garbage (these items as a group can be mixed)
- Leaves and yard clippings (yard trash)

- 2.) Tree and shrub limbs must be cut to lengths of no more than five (5) feet.
- 3.) If the yard trash pile is more than four (4) cubic yards, (example: 6' x 6' x 3'), then you will need to call for a special pickup and the cost will be a \$25.00 loading fee each trip, plus the amount of the weight ticket at the landfill. Weekly trash pickup is limited to four (4) cubic yards.
- 4.) Tree limbs and shrubbery from lot clearing other than regular periodic maintenance shall make application to the Public Works Department for these services, the cost of which will be \$125.00 per load (City Code 8-26)
- 5.) Building materials may be picked up when labor and equipment are available. The property owner shall make application to the Public Works Department for this service. The cost for building material will be \$75.00 (City Code 8-26) for pickup, and \$8.00 per yard. Do not mix building materials with any other materials.
- 6.) Other large item (such as furniture, refrigerators, tires, etc.) can be picked up special request for a minimum \$25.00 fee (large pickups will be charged per # 3 above). To make a special request, please call Utilities at (386) 362-2276 or email utility@cityofliveoak.org.

For questions or concerns, please call: (386) 362-2276

Thank you for your help!
